

Science Fair Data-*This is also double sided**

THIS IS DUE ON

This is the data that I collected from my experiment: Draw your data chart and graph here.

Before handing in your science fair Data, please make sure that it meets the following criteria.

- My data is my observations from my experiment
- My data is in a chart & a graph.
- My data includes all relevant units (example: centimeters; grams; etc.)
- Graphs need to be labeled.
- The X & Y axis both need to be labeled.

Science Fair Results

THIS IS DUE ON

Here are the results of my experiment:

Before handing in your Science Fair Results, please make sure that it meets the following criteria.

ONLY INCLUDE THE RESULTS OF EACH TRIALS AND THE AVERAGES FROM EACH TRIAL.

- My results are a summary of my data.
- The results are written in my own words.
- Each sentence describes the average of one of the trials.
- **** Sentence one should explain the average of the first trial.
- Sentence two should explain the average of the second trial.
- Sentence three should explain the average of the third trial.
