

## Science Fair Works Cited Page

*DUE ON*

The purpose of this research is to make your question more focused and your hypothesis more informed.  
Sources are websites, books, etc

My science fair question is:

---

---

The information about my question that I wanted to find out through research includes: \_\_\_\_\_

---

---

---

My 1<sup>st</sup> source of information is:

---

---

Relevant information that I learned from this source includes:

---

---

---

My 2<sup>nd</sup> source of information is:

---

---

Relevant information that I learned from this source includes:

---

---

---

My 3<sup>rd</sup> source of information is:

---

---

Relevant information that I learned from this source includes: (3rd source)

---

---

---

My REVISED HYPOTHESIS based on what I have learned from my research: \*\*\* Don't need to change hypothesis

---

---

---

---

---

---

#### RUBRIC FOR WORK CITED PAGE

Work cited Page is where you include the sources of your information- **\*\*\*SEARCH ENGINES ARE NOT SOURCES OF INFORMATION**-Google is a search engine. Do not use Wiki as a source.

To cite a website you need to include the URL- [www.chemistry4kids.com](http://www.chemistry4kids.com)- this is an example.

Grade 5=100

5-= includes science fair question , information that they want to learn from research, all three sources and information that they learned from each source.

Grade-4= 80 –missing two parts

Grade-3 =60- missing three parts

Grade-2=40- missing four parts

Grade-1=20- missing five parts
